Allowable Subject Matter

1. Claims 1-4 and 25-41 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's claimed invention discloses a method and apparatus for encoding and decoding data, wherein supplemental data is used to alter a parameter, wherein an algorithm to encode the data is determined by the altered parameter. The prior art discloses a similar invention. However, the prior art neither singularly nor in combination discloses wherein the recoverably embedded supplemental data is configured to be detected regardless whether the remaining encoded data is decoded. For these reasons, claims 1-4 and 25-41 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
